

LKS-6M-310-340W

Mechanical data:

Solar cells array:	72 (6X12)
Junction box:	solar junction box, IP68, 3 bypass diode
Output cab :	4.0MM ² , cable length as standard+mc4 connector
Single glass:	3.2mm tempered glass
Frame:	aluminum frame
Weight:	20KG/22KG
Dimension:	1956x 992 x 40mm
Packing:	1 Pcs/carton, paper carton
Remarks:	fully customized acceptable

Specially designed for the medium and large scale use of power, with high stability and long term life time of correct use, which could provide power for a family, or even a committee, for the daily use of power. Together with battery and inverter we could install a small pv plant for a home, and with large quantity of our solar modules, we could also install giant pv plant even for an area. It is your smart choice to be with us!

Electrical data: STC: AM1.5 1000/m² 25C° peak power testing tolerance ±3%
