

Solar Wall Mounting

UISOLAR wall mounting is designed to efficiently utilize solar energy by adopting vertical surfaces for mounting. By optimizing sunlight exposure, they maximize energy production, making them ideal for areas with limited space.

Technical Data

Mount type :	Solar Wall Mounting System
Applicable site :	Wall
Module type :	Framed
Module orientation :	Landscape or portrait
Max.wind load :	60m/s
Max.snow load:	2kn/m2
Material :	Aluminum 6005-T5 & SUS 304
Warranty :	10 years
